

DIPLOMA

of European Safety and Reliability Association

awarded to

Ádám Tóth, János Sztrik, Attila Kuki, Tamás Bérczes and Dmitry Efrosinin

for the paper with big potential for future safety and reliability research

Reliability Analysis of Finite-Source Retrial Queues

with Outgoing Calls Using Simulation

presented at

the International Conference on Information and Digital Technologies 2019

held on 25 - 27 June 2019 in Žilina, Slovakia

Prof. Marko Čepin
Chair of ESRA
