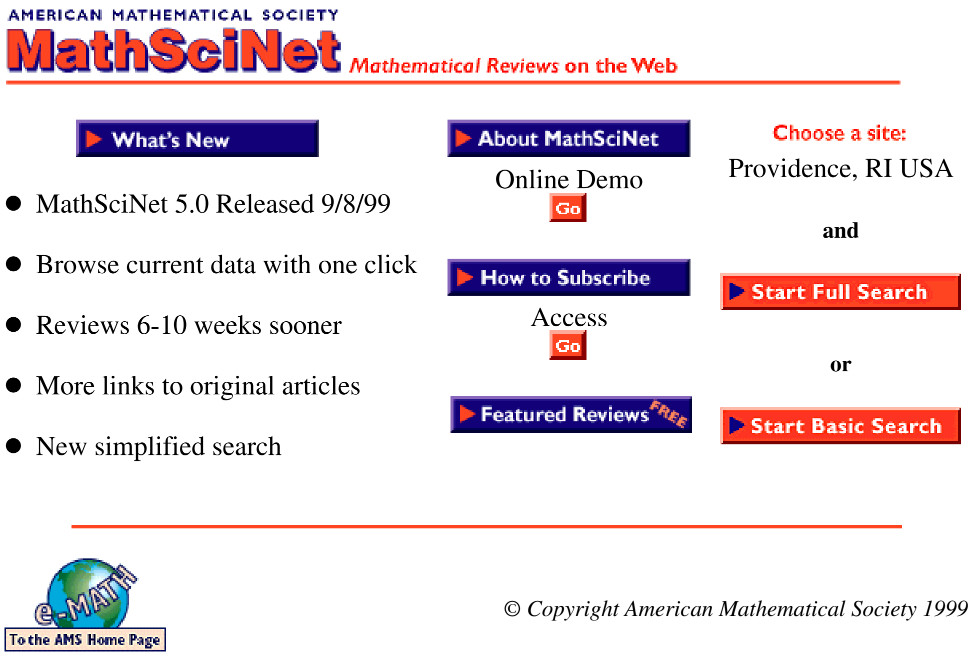
4. Hasznos információ források

Ebben a fejezetben a kutatással kapcsolatos legfontosabb címeket adjuk meg.

4.1 Referáló folyóiratok

- Zentralblatt MATH Database
  `http://www.emis.de/ZMATH/`
- MathSciNet
  `http://www.ams.org/mathscinet`



Zentralblatt MATH Database

The database is edited by **European Mathematical Society**, the **FIZ Karlsruhe**, and the **Heidelberg Academy of Sciences**. It is established in cooperation with **Math Doc Cell (France).**
Several European **Editorial Units** cooperate with the Editorial Office in Berlin.

Association for Computing Machinery

Founded in 1947, ACM is the world's first educational and scientific computing society. Today, our members - over 80,000 computing professionals and students world-wide - and the public turn to ACM for authoritative publications, pioneering conferences, and visionary leadership for the new millennium.

A több, mint egymillió kötetes Egyetemi Könyvtár már a Szegedi Universitas tényleges megalakulása elõtt évtizedekkel univerzitás-könyvtárként mûködött, hisz "anyaintézményén" túl könyvekkel látta el az összes szegedi felsõoktatási intézmény szinte valamennyi hallgatóját. A mai, mintegy 15.000 beiratkozott olvasó nagyrésze így egyetemi-fõiskolai polgár, illetve szegedi vagy környékbeli lakos, nemritkán egykori szegedi diák. A mintegy 50 fõs szakembergárda és a csaknem 20 fõs kisegítõ személyzet tehát nagyon kiterjedt tudományos és oktatói kör ellátásáról, kiszolgálásáról gondoskodik, s azon igyekszik, hogy az elektronikus hálózatok révén mind tágabb környezetének is hasznos információkat nyújtson.
