

## Az OTKA-14974/95 pályázathoz kapcsolódó publikációk 1995-től

### Könyv

1. Dr. Sztrik János - Dr. Sztrikné Rigó Rita  
**Így fordítjuk**, APC-Stúdió, Gyula, 1995.

### Egyetemi doktori disszertáció

1. Almási Béla  
Számítógéprendszerek hibáinak matematikai modellezése  
**Egyetemi doktori disszertáció**, KLTE, Matematikai és Informatikai Intézet, 1995.

### Cikkek

1. B. Almási  
Comparing two queueing models for non-homogeneous nonreliable terminal systems  
**Journal of Mathematical Sciences** 76(1995) 2222-2226
2. D.D. Kouvatso - R. Fretwell - J. Sztrik  
Bounds on the Effects of Correlation in a Stable MMPP/MMPP/1/N Queue  
**Proceedings of Second Workshop on Performance Modelling and Evaluation of -ATM Networks**, Chapman and Halls, 1995, 261-281
3. L. Lukashuk - J. Sztrik  
Asymptotic analysis of the behaviour of a multichannel queueing system functioning in a Markov medium, **Journal of Mathematical Sciences** 75 (1995) 1852-1856
4. J. Sztrik  
Queueing model for a heterogeneous multiprocessor system with randomly changing parameters  
**Proceedings of the Second Ukrainian-Hungarian Conference on New Trends in Probability and Statistics 1992, TBiMC, Kiev** (1995) 279-291
5. B. Almási - J. Sztrik  
Performance Simulation of a Non-Reliable Terminal System  
**Proceedings of Modelling and Simulation, ESM96, Budapest, Hungary** ( 1996 ) 784-787
6. B. Almási  
Response time for finite heterogeneous queueing Systems  
**Computers and Mathematics with Applications** 31(1996) 55-59
7. B. Almási - J. Sztrik  
Software Tools in Teaching Queueing Theory  
**Proceedings of Informatics in Higher Education, Debrecen, Hungary** ( 1996 ) 78-84
8. L. Lakatos  
On a cyclic-waiting queueing system,  
**Theory of Random Processes** 18(1996) 177-181
9. B. Almási - J. Sztrik  
The effects of service disciplines on the performance of a non-reliable terminal system  
**Theory of Probab. and its Appl.** 42 (1997) 374-375
10. J. Sztrik  
Asymptotic Analysis of Markov-Modulated Multiprocessor Systems  
**Proceedings of 13<sup>th</sup> United Kingdom Workshop on Performance Engineering of Computer and Telecommunication Systems, Ilkley, England** (1997) 7/1-10

11. J. Sztrik  
Asymptotic Analysis of a Finite-Source ATM System  
**Proceedings of 5<sup>th</sup> IFIP Workshop on Performance Modelling and Evaluation of ATM Networks, Ilkley, UK (1997) 85/1-12**
12. B. Almási, G. Bolch, S. Greiner, J. Sztrik  
On optimal operation of a non-reliable terminal system  
**Proceedings of 3<sup>rd</sup> International Conference on Applied Informatics, Eger, Hungary (1997), 3-12**
13. B. Almási - J. Sztrik  
Softver Tools in Queueing Theory  
**Proceedings of 3<sup>rd</sup> International Conference on Applied Informatics, Eger, Hungary (1997), 13-19**
14. B. Almási - J. Sztrik  
Reliability analysis of finite-source information systems with different users  
**Proceedings of RelInCom'98, Symposium on Quality and Reliability in Information and Communication Technologies, Budapest, Hungary (1998), 123-130**
15. B. Almási  
A queueing model for non-homogeneous polling systems subject to breakdowns  
**Annales Univ. Sci. Budapest, Sec. Comp. ( to appear)**
16. B. Almási - J. Sztrik  
A Queueing Model for a Non-Reliable Multi-Terminal System with Polling Scheduling  
**Journal of Mathematical Sciences ( to appear)**
17. B. Almási - J. Sztrik  
The effects of service disciplines on the performance of a non-reliable terminal system  
**Journal of Mathematical Sciences ( to appear)**
18. B. Almási - J. Sztrik  
A simulation tool to evaluate the performance of finite source queueing models  
**Journal of Mathematical Sciences ( to appear)**
19. L. Lakatos  
On a discrete cyclic-waiting system  
**Theory Probab. Appl. ( to appear)**
20. L. Lakatos  
On a discrete cyclic-waiting system  
**Journal of Mathematical Sciences ( to appear)**
21. L. Lakatos  
Ergodic distribution for the M/G/1system with vacation  
**Theory of Stochastic Processes ( to appear)**
22. L. Lakatos  
Ergodic distribution for the M/G/1system and related systems  
**Leaflet in Mathematics / JATE, Pécs/ ( to appear)**
23. L. Lakatos  
Ergodic distribution for the M/G/1system and related systems  
**Publicationes Mathematicae ( to appear)**
24. L. Lakatos  
On a discrete cyclic-waiting system  
**Theory Probab. Appl. ( to appear)**

25. J. Sztrik  
Reliability analysis of complex communication systems  
**Journal of Mathematical Sciences** ( to appear)

### **Oktatási segédlet**

1. Almási Béla - Sztrik János  
MACOM programismertető  
**oktatási segédlet**, KLTE Matematikai és Informatikai Intézet, 1995.

### **Research Report-ok**

1. B. Almási  
Non-homogeneous queueing models for non-reliable terminal systems  
**Technical Report 95/129**, KLTE, Debrecen, 1995
2. B. Almási - J. Sztrik  
Performance simulation of a non-reliable terminal system  
**Technical Report 96/12**, KLTE, Debrecen, 1996
3. J. Sztrik  
Asymptotic Analysis of a Heterogeneous Finite-Source Markov-Modulated Communication System  
**Universitas Debrecen** No. 97/5, Hungary (1997)
4. B. Almási - J. Sztrik  
A Queueing Model for a Non-Reliable Multi-Terminal System with Polling Scheduling  
**Universitas Debrecen** No. 97/6, Hungary (1997)
5. B. Almási - J. Sztrik  
The effects of service disciplines on the performance of a non-reliable terminal system  
**Universitas Debrecen** No. 97/7, Hungary (1997)

### **Konferenciák**

1. B. Almási, I. Szkiba  
Internet szolgáltatások használata IBM-PC számítógépeken  
**NJSZT VI. Országos Kongresszusa 1995, Siófok**
2. B. Almási, I. Szkiba  
Informatikai infrastruktúra alkalmazási tapasztalatai  
**NJSZT VI. Országos Kongresszusa 1995, Siófok**
3. B. Almási, Zs. Lencse, I. Szkiba  
LAN hálózati adminisztrációs tapasztalatok a KLTE Matematikai és Informatikai Intézetében  
**Networkshop'95 Konferencia**, Gödöllő, 1995
4. G. Bolch - C. Bruzsa - J. Sztrik  
Modelling and Simulation of Markov Modulated Multiprocessor Systems with Petri Nets  
**7th European Simulation Symposium, University of Erlangen**, Germany, 1995
5. L. Lakatos  
On a cyclic-waiting queueing system  
**1<sup>st</sup> Ukrainian-Scandinavian Conference on Stochastic Dynamical Systems**, Uzhgorod, Ukraine, 1995

6. B. Almási, K. Juhász, Zs. Lencse, I. Szkiba  
SUNSITE a KLTE-n  
**Networkshop'96 Konferencia**, Debrecen, 1996
7. B. Almási, Zs. Lencse, I. Szkiba  
JAVA mint magasszintű programnyelv  
**Networkshop'96 Konferencia**, Debrecen, 1996
8. J. Sztrik  
On finite-source queueing models  
**Symposium on Operations Research (SOR96), Braunschweig, Germany (1996)**
9. B. Almási - J. Sztrik  
A Queueing Model for a Non-Reliable Multi-Terminal System with Polling Scheduling  
**XVIII Seminar on Stability Problems of Stochastic Models, Debrecen, Hungary (1997)**, 18
10. B. Almási - J. Sztrik  
The effects of service disciplines on the performance of a non-reliable terminal system  
**XVIII Seminar on Stability Problems of Stochastic Models, Debrecen, Hungary (1997)**, 101
11. B. Almási, G. Bolch, S. Greiner, J. Sztrik  
On optimal operation of a non-reliable terminal system  
**3<sup>rd</sup> International Conference on Applied Informatics, Eger, Hungary (1997)**
12. B. Almási - J. Sztrik  
Softver Tools in Queueing Theory  
**3<sup>rd</sup> International Conference on Applied Informatics, Eger, Hungary (1997)**
13. L. Lakatos  
On a discrete cyclic-waiting systems,  
**XVIII Seminar on Stability Problems of Stochastic Models, Debrecen, Hungary (1997)**, 65
14. L. Lakatos  
Ergodic Distribution for the M/G/1 systems with vacation,  
**Second Scandinavian-Ukrainian Conf. on Math. Stat. Umea, Sweden (1997)**, 53
15. J. Sztrik  
Asymptotic Analysis of Markov-Modulated Multiprocessor Systems  
**13<sup>th</sup> United Kingdom Workshop on Performance Engineering of Computer and Telecommunication Systems, Ilkley, England (1997)**
16. J. Sztrik  
Asymptotic Analysis of a Finite-Source ATM System  
**5<sup>th</sup> IFIP Workshop on Performance Modelling and Evaluation of ATM Networks, Ilkley, UK (1997)**
17. J. Sztrik  
Asymptotic analysis of a heterogeneous finite-source Markov-modulated communication system  
**International Conference of the Performance and Management of Complex Communication Networks, Workshop 3, Queueing Theory and its Applications, Tsukuba, Japan (1997)**
18. L. Lakatos  
M/G/1 and related systems in equilibrium,  
**Munchener Stochastik-TageVortrage**, Universitat der Bundeswehr Munchen, 1998, 7.
19. B. Almási - J. Sztrik  
A simulation tool to evaluate the performance of finite source queueing models  
**XIX Seminar on Stability Problems of Stochastic Models, Vologda, Russia (1998)**,

20. B. Almási - J. Sztrik  
Reliability analysis of finite-source information systems with different users  
**RelInCom'98, Symposium on Quality and Reliability in Information and Communication Technologies, Budapest, Hungary (1998)**
21. B. Almási - J. Sztrik  
Optimization problems on the performance of a non-reliable terminal system  
**OR98, International Conference on Operations Research, Zurich, Switzerland (1998)**
22. J. Sztrik  
Reliability analysis of complex communication systems  
**XIX Seminar on Stability Problems of Stochastic Models, Vologda, Russia (1998)**

Debrecen, 1999. március 6.

Dr. Sztrik János  
docens, témavezető
